PRIEST MAKES A CHANGE

REV. FR. J. W. GORMLEY UNITES
WITH PRECIOUS BLOOD
COMMUNITY.

NOW QUEST OF REV. FR. NEIBERG

Resigns Charge at Garnett, Kas., and
About the Last of June Will
Go to Carthage, Ohio,
for Assignment.

The Rev. Fr. J. W. Gormley, of
Garnett, Kas., a secular priest who
lectured on the night of February 12,
last, at Sacred Heart hall on "Home
and Government," has resigned his
charge in the Sunflower state and has
united with the Order of the Precious
Blood, to which order the Rev. Fr.
Neiberg and his assistants of Sacred
Heart church belong.

The news of Fr. Gormley's change
will come as a surprise to Catholic
circles in Missouri and Kansas, but it
is certain that he will have with him
in his new field of labor the best
wishes of all who have the honor of
his acquaintance.

Fr. Gormley is a young man of
Irish descent, and is a pulpit orator
of unusual ability. He is a native of
Atchison, Kas. His classical studies
were pursued at St. Benedict's col-
lege in that place. His theological
studies were at the Royal Imperial
university, Innsbruck, Austria. He
was ordained a priest in 1899 in Atch-
ison, but returned again to Europe,
where he spent a year in travel.

In 1900 he returned to his native
land and since that time has held
many charges in the diocese of Leavenworth, Kas.

For a time he did missionary work
among the Pottawatomie Indians,
and later was the Catholic chaplain
at the Kansas state penitentiary at
 Lansing.

The past four years he has been
located at Garnett, Kas., where he had
charge of a missionary district, em-
bracing four counties.

Here he attained considerable
prominence by his nomination for the
legislature by the democratic party—
an honor which, on the advice of
Bishop Lillis, he declined.

The last year he has devoted con-
siderable attention to the lecture
platform, his first trip to Sedalia be-
ing to open the course inaugurated
in the new Sacred Heart school.

For many years, however, he has
desired to abandon parochial work
and the pulpit and platform for teach-
ing—a vocation more to his taste.
Having secured the approbation of
his bishop, he applied to the Fathers
of the Precious Blood for admission
into their community, and upon a fa-
vorable response he resigned his
charges in Kansas and about the last
of June he will report at the semi-
nary of the Precious Blood commu-
nity at Carthage, O., for assign-
ment.

Fr. Gormley will preach on "Mod-
ernism" next Sunday morning during
the high mass at 10:30 at Sacred
Heart church.

AGREEMENT IS REACHED

Between the Local Police, Railway
and the Cab Drivers.

An agreement between the police,
Missouri Pacific officials and cab driv-
ers was reached today, whereby the
cabmen are to keep out of the way
of the traveling public going and com-
ing from the trains at the local sta-
tion.

According to the terms of the agree-
ment, the cabmen are to stand back
of a line drawn north and south from
the iron railing fence to the railroad
tracks, instead of lodging themselves
within a few feet of the steps of the
coaches.

The rule does not apply to trains
with Sedalia as the terminal point.
The rule also forbids the yelling of
the names of hotels by different por-
ters, or the soliciting of baggage.

BRIBERY WITNESS CAUGHT

After a Columbus Man Confessed,
Involving Others, He Fleed.

Columbus, O., May 8.—Nelson A.
Cannon, Columbus agent of the Cleve-
land Trinidad Paving company, on
whose confession of bribery the mem-
bers of a former board of public
service and the officers of the Cleve-
land Trinidad company were indict-

ed, when he decamped on the eve
of the trial, is reported under arrest
at Hamilton, Ont.

All those concerned were indicted
but the cases were never brought to
trial, owing to the flight of Cannon,
the chief witness.

Came Home Today to Die.

An aged man named Beck, living in
vicinity of Osage avenue and Ham-
street, who is suffering from tuber-
culosis in its last stages, arrived here
from Los Angeles, Cal., accompanied
by his son, on the noon train today.
The old man was completely ex-
hausted and on alighting from the
train fell to the platform. He was
assisted to a cab and taken to his
home.

DOES IT MEAN OPEN SHOP

SIGNIFICANT STEPS TAKEN AT
MISSOURI PACIFIC FORT
SCOTT SHOPS.

ARE OTHER SHOPS TO FOLLOW SUIT

Company Is to Let Work Out by Con-
tract, on the Ground That It Re-
moves Responsibility and
Abates Grievances.

Master Mechanic M. J. McGraw to-
day stated that there was nothing
new in the local Missouri Pacific
shops situation, and he has no idea
when the command will come from
headquarters to resume work.

The following clipping from the
Fort Scott Tribune of last evening
was read to Mr. McGraw over the
phone, but he replied that it was all
news to him. The Democrat-Sentinel
reproduces the Tribune's article, and
no doubt it will cause considerable
comment in railway circles. The
question is, does it mean open shops
on the Missouri Pacific? Here's what
the Tribune says:

"The move made by the Missouri
Pacific Railway Co. to bring about a
condition whereby its car shops in
part, may be operated upon a con-
tract system instead of the old plan,
is one of significance indeed.

"Railroad shopmen today were
talking a great deal of this move on
the part of the company.

"Will Welch has entered into a
contract with the Missouri Pacific to
work twenty or thirty men in the
car shops here, doing the company's
repair work.

"They claim that by this system
the company has altogether removed
the responsibility it always rested
under of being sued for damages for
personal injuries, labor troubles,
grievances, etc.

"The company sub-lets the contract
to an independent man who is res-
ponsible to the men who work under
him. There was talk of the car men's
union not joining the forces that
will go to work under this system
Monday.

"The union men claim that they
are not fairly dealt with and that
they are not in sympathy with the
company in this particular."

WEDDING DATE SECRET

That of Mr. John Murphy and Miss
Lillian Brinton.

John Murphy, foreman of the Sturges
Lumber company yards, and Miss
Lillian Brinton, for several years one
of the efficient employees in the cloak
department of the St. Louis Clothing
company, will be united in marriage
by Rev. A. A. Boyd, pastor of the Cen-
tral Presbyterian church, at the home
of the bride's mother, Mrs. Saml F.
Erntson, 619 East Tenth street, at
evening during the latter part of the
week after next.

The ceremony will be witnessed
only by immediate relatives and will
be a quiet affair. The exact date of
the wedding the couple is keeping
from their friends. After the cere-
mony they will go to housekeeping at
319 East Tenth street.

Mr. Murphy is well known through-
out the city, where he has many
friends. His bride-to-be is one of
Sedalia's best known and most popular
ladies, who by her affable manner
has endeared herself to every ac-
quaintance, all of whom will join in extend-
ing hearty congratulations.

Dr. Herrick Seriously Ill.

Dr. Herrick, the veterinarian, who
is bedfast at his home with lockjaw,
is very low this afternoon, according
to a report from his bedside.

SERVICE IS EXCELLENT

THAT FURNISHED BY THE CITY
WATER CO. OF SEDALIA
AT PRESENT.

LARGE SUMS OF MONEY EXPENDED

Councilman Ilgenfritz Made a Care-
ful Examination and Tells
the City Fathers Just
What He Found.

W. D. Ilgenfritz, one of the city's
most conservative business men, re-
presenting the First ward as alderman,
at last Monday night's meeting of the
city council made a verbal report of
the improvements perfected and money
expended by the City Water com-
pany at the pumping station south of
the city and in the city proper in the
past two years.

According to Mr. Ilgenfritz, he vis-
ited the plant recently and also Lake
Tebos, south of the water works, which
latter he found in good condition and
full of water. The estimated capacity
of the lake is 500,000,000 gallons.

The reservoir, according to Mr. Il-
genfritz, although only about one-
third full of water, is greatly improv-
ed to better facilitate the filtration of
the water, and Mr. Ilgenfritz left or-
ders to have it filled at once.

A new pump, with a capacity of
pumping 5,000,000 gallons of water a
day, has been installed, while the
old pump, with a capacity of 2,000,
000 gallons, has been repaired, to be
utilized in case of emergency.

An inspection of the boiler service
showed it to be ample to fill all re-
quirements. Mr. Ilgenfritz found two
worn-out, low-pressure pumps, which
the management has promised to re-
place at once.

The water mains are in good con-
dition, nearly all of them being new,
while the two standpipes, each hav-
ing a capacity of 164,000 gallons of
water, are within five feet of being
filled to the top.

The water committee of the coun-
cil is working to adjust some differ-
ences between the council and the
water company relative to penalties
imposed during Mayor Babcock's for-
mer administration for failure of the
company to comply with the contract,
and will report at the next meeting
of the council.

The water company has expended
thousands upon thousands of dollars
in the betterment of its plant, and it
is doubtful if it is today surpassed
by any plant in any city of anything
like the same population in the United
States.

BIG FIRE IN ATLANTA

Over a Million and a Quarter Loss
Result of Conflagration.

Atlanta, Ga., May 8.—A fire here
early today destroyed half a dozen big
blocks, bounded by Madison, Forsythe,
Nelson and Mitchell streets. The
property loss will reach \$1,125,000.
The flames started at 3:30 o'clock
this morning and were not under con-
trol until 7.

The Terminal hotel, one of the
largest in the city, is a mass of ruins,
as are several small nearby hotels.
Two hundred guests who were in the
Terminal hotel, as well as those in the
others, escaped, and as far as known
there was no loss of life. The fire
started in the Schlesinger-Meyer
Baking company, at Madison and Nel-
son streets. The building was soon
destroyed and from it the flames
spread quickly to other nearby prop-
erty.

SPECIAL LABOR SERVICES

At Broadway Presbyterian Church
Sunday Night.

A special service for the working-
men of Sedalia will be held at the
Broadway Presbyterian church next
Sunday night. May 16th has been rec-
ommended by the American Federa-
tion of Labor and set apart by the
department of church and labor of the
Presbyterian church as Labor Sun-
day.

Rev. Charles Stelze, superintend-
ent of the department of church and
labor of the Presbyterian church, him-
self a master mechanic, has been
foremost in lessening the gap be-
tween the workman and the workman
the church, in interpreting the church to
the workman and the workman

to the church. At his suggestion this
service is held.

The pastor and congregation give
a cordial and special invitation to all
those connected with organized labor
and to all workmen of Sedalia to this
service Sunday night. Tasteful
souvenir programs will be distributed.
Special music has been arranged.

Mr. Lawson will sing "The Home-
land;" Mrs. Baxter will sing, "Come
Unto Me, All Ye That Labor," an
anthem, "There Is Rest," will be sung
by the choir. The service will be
made helpful to all.—D. M. Clagett,
Pastor.

Licensed to Wed.

A marriage license was issued today
to Joseph M. Richards, of Longwood,
and Ada M. Fike, of Houstonia.

MORE BODIES ARE FOUND

DIGGERS ON MRS. GUINNESS'
FARM UNEARTHED TWO
MORE SKELETONS.

ONE A MAN; THE OTHER A WOMAN

Both Had Been Cut Up Before Burial
—Authorities Are Now Positive
That the Guilty Woman
Still Lives.

La Porte, Ind., May 8.—Two more
bodies were unearthed on the Guin-
ness farm today. They had been
buried in a grave near the spot
where the three bodies were exhumed
Wednesday. The first found today
was undoubtedly that of a grown
male and the second is believed to
be that of a woman.

A soft spot under a pile of refuse
was selected by the diggers as the
most promising place to begin their
work. They had not been long at
their task before they turned up a
spade full of bones. The skeleton,
which had been badly disarticulated,
was scattered, but the bones are in
a good state of preservation. From
indications it is believed that the
bodies have been under ground two
years. The second skeleton was
found directly under the first, and
the bones being smaller leads to the
belief that it is of a woman.

It is thought that other bodies will
be found today.

Woman Friend Still Alive.

Chicago, May 8.—A dispatch from
La Porte says: Mrs. Belle Guinness
is still alive. This was established
beyond any doubt yesterday when
measurements taken of the headless
trunk of the woman found in the
ruins of the burned home resulted in
the astounding revelation that the
dead woman was not more than half
the size or weight of Mrs. Guinness.
Those who knew her also assert with
positiveness that the body is no
hers.

"WETS" ARE AFTER OFFICE

Meeting of the Prohibitionists at the
Court House.

E. E. McClellan, chairman of the
prohibition party of this county, called
the convention to order at the
court house this morning. F. A. Tav-
ener, of Smithton, led in prayer. A.
S. Ebersole was elected secretary.

Messrs. Tavener, of Smithton; Eb-
ersole, of Sedalia, and Evans, of La-
monte, were appointed a committee
to investigate the new primary laws,
and suggest names for the county
prohibition ticket, after which ad-
jourment was taken until 2 o'clock.

On reassembling it was announced
that the county ticket would be re-
ported at a meeting to be held a few
days hence, the exact date to be an-
nounced later.

At 2 o'clock this afternoon the Sev-
enth congressional district commit-
tee of the prohibition party met at
the court house, with E. E. McClel-
lan as chairman and A. S. Ebersole
as secretary.

Mr. McClellan was selected for
congressman from this district, to be
nominated at the primary election in
August, and the following were elect-
ed delegates to the state convention,
to be held in Joplin on May 13 and
14:

E. E. McClellan, Dr. and Mrs. J. E.
Cannaday, F. B. Green, of Smithton;
Rev. S. A. Walton, of Green Ridge;
A. S. Ebersole and Mrs. G. W. Bar-
nett.

New Fire Hose Here.

Five hundred feet of hose for the
Sedalia fire department, shipped from
New York, arrived here today.

GOLF ON MEMORIAL DAY

THE NEXT REGULAR HANDICAP
WILL BE AN 18-HOLE
TOURNAMENT.

TO BEGIN QUALIFYING SATURDAY

For Open Championship to Be Played
in September—The Best Medal
Score Is What Will Quali-
fy the Player.

The golfing program on the links
of the Country club for 1908 was
started with a "hurrah" in the inau-
gural tournament last Saturday. So
far as to number of players partici-
pating then it was one of the largest
tournaments in the history of the
club. The next regular handicap
event will be an eighteen-hole tourna-
ment on Decoration day, Saturday,
May 30.

Beginning Saturday, May 9, one
player will qualify each week until
sixteen have qualified for the open
championship to be played in Septem-
ber. With the exception of the two
periods wherein Saturday, May 30,
and Saturday, July 4, occur the best
medal score made from Saturday to
Monday in each week will qualify the
player making the score for the open
championship.

This method of qualifying players
for the championship contest has
been used to the end that each Sat-
urday to Monday play during the year
may have an added interest. Having
proven satisfactory, the plan has been
continued this year. Scores should
be handed in regularly by all players
through the remainder of the sea-
son.

Arrangements are being made for
the formal opening of the club house.
The entertainment committee is plan-
ning some special features. An-
nouncement of the date of opening
will be made by that committee.

ARE GROWING IN INTEREST

The Revival Meetings at Broadway
Christian Church.

The meetings at the Broadway
Christian church are growing in in-
terest. Last night the auditorium
was filled with interested listeners.
Elder J. J. Setliff, the pastor, is doing
the preaching. He spoke last night
from John 3:19, "Search the Scrip-
tures," and in the discourse he en-
deavored to show how this should be
done in order to fulfill this injunction
of the Christ and obtain eternal life
through Him.

The music is an attractive feature
of the meetings and on last evening
"Jesus, Lover of My Soul," was sung
and illustrated by a number of col-
ored pictures thrown on the screen
by the use of the stereopticon. The
meetings will continue all next week.
No services on Saturday nights.

STRIKE BREAKERS RUN OUT

Iowa Railroad Men Chased Twenty
Men From Marshalltown.

Marshalltown, Ia., May 8.—About
twenty strikebreakers, whom the
Iowa Central imported from Chicago
and Minneapolis a week ago to take
the places of striking shop em-
ployes, were surrounded in the de-
pot district of the town yesterday
and driven to the city limits.

The strikebreakers were followed
by a mob of strikers armed with
stones and bricks, who kept the men
ahead of them along the company's
right of way. Some of the strike-
breakers were roughly handled, but
none was severely injured.

FARMER SHOT BY A NEIGHBOR

Shotgun Used in Quarrel About
Partnership Fence.

Cuba, Mo., May 8.—P. A. Farris,
a farmer living on Brush Creek, eight
miles north of here, is at home in a
critical condition as a result of be-
ing shot twice by J. E. Carr, a
neighbor. The men have been on
bad terms for some time and Wed-
nesday morning quarreled about a
fence dividing their farms.

In the quarrel Carr shot Farris
twice with a shotgun, inflicting
wounds in the neck and side. A
physician removed the shot, but the
wounded man suffered much loss of
blood, and he is not expected to live.
After the shooting Carr came to

town and surrendered to Constable
Munro. He was taken to Steelville
and placed in jail, where he is held
without bail awaiting the result of
Farris' injuries.

Honor for Bright Sedalia Girl.

Miss Louise Alexander, the accom-
plished young daughter of Supt. A. J.
Alexander, of the Missouri Pacific,
will leave next Monday night for Au-
burn, Ala., where she has been in-
vited to act as sponsor at the commence-
ment exercises of a friend who is
soon to be graduated from the Auburn
Polytechnic school. Miss Alexander's
brother, William, is also a student at
the school, and the selection of Miss
Alexander as sponsor is considered
highly complimentary.

CHILD WIFE TO PRISON

IOWA GIRL OF 17 CONVICTED
OF HAVING KILLED HER
HUSBAND.

SAD STORY OF MRS. IRENE DOLPH

Sentenced to Eight Years' Imprison-
ment for One of the Most Unus-
ual Crimes in the His-
tory of Iowa.

Clinton, Ia., May 8.—Irene Dolph,
the 17-year-old wife convicted of
manslaughter for the killing of her
husband, has been sentenced to eight
years in prison for her crime, which
was one of the most unusual in the
police records of Iowa.

Fred Dolph, the victim, was mur-
dered in his cottage several days be-
fore March 1. On that date the po-
lice of Clinton were notified by an
attorney that they might possibly
find a dead man in the Dolph home.
On investigation the police found the
body of Dolph, several days dead,
and the implements of murder near
by.

Later it was brought out in the
coroner's hearing that immediately
following her crime Mrs. Dolph had
fled to her mother in Joliet, Ill., and
that the two had consulted their
lawyer, and told him that Dolph prob-
ably lay dead in his home.

The girl wife's life has been a pit-
iful one. In the trial it was shown
that her mother is an epileptic, and
that she also suffered from the same
affliction and was weak mentally.

She was reared among wretched
influences and early brought into
touch with immoral ways. She was
married to Dolph several years ago,
while a mere child, and their mar-
ried career was unhappy.

Several days preceding the killing
the two quarreled during a party in
the Dolph home. Dolph then threat-
ened to leave his wife and she de-
clared she would follow him and kill
him if he did. Circumstances indicate
that the killing was accomplished the
night following.

While the evidence left no question
of Mrs. Dolph's guilt, the jurors took
the position that she was not alto-
gether responsible and their verdict
was as lenient as it possibly could
be.

RESCUED 72 SAILORS

Life Savers After Twenty-Four Hours
Take Them From Wrecked Ship.

New York, May 8.—Seventy-two
men who for more than twenty-four
hours have been facing death in the
raging sea near Fire Island were res-
cued from the hull of the big Ger-
man ship, Peter Rickmers, early to-
day by life savers after twelve stren-
uous attempts. It was only the eas-
ing up of the gale that made the res-
cue possible.

Will Address Club Women.

Miss Anna Lou Clark, of Booneville,
president of the Federated Women's
clubs of the Fifth district of Missouri,
will address the club women of Se-
dalia and their friends at the public
library rooms at 3 o'clock Saturday
afternoon on the subject of a \$100,-
000 women's building at the state fair
grounds. All interested in the move-
ment are invited to be present.

A Militia Company for Springfield.

Springfield, Mo., May 8.—The
county court has given \$200 and the
use of a room in the court house as
an armory and the city council has
appropriated \$700 additional to se-
cure for Springfield a company of
state militia.

AFTER \$40,000 HOLD-UP

F. AUGUSTUS HEINZE HAS LAW-
YER ARRESTED ON EXTOR-
TION CHARGE.

EDWARD E. BRENNAN IN CUSTODY

A Detective Was Secreted in Copper
King's Office and Listened to
the Conversation Between
Parties Interested.

New York, May 8.—Edward E.
Brennan, a lawyer of Butte, Mont.,
was arrested in the office of F. Au-
gustus Heinze late last afternoon,
charged with attempting to extort
\$40,000 from Mr. Heinze.

Brennan is 31 years old and his
people are said to be prominent resi-
dents of Indianapolis. When he was
arrested, immediately after his ar-
rest, he was held for forty-eight
hours for further examination.

According to a detective of the dis-
trict attorney's office who made the
arrest, Brennan came to New York
several days ago, after having been
in communication with Heinze for
some time.

The complaint which led to Bren-
nan's arrest was made by Heinze at
the district attorney's office Wed-
nesday. Heinze said that an attempt
was being made to extort money
from him by Brennan who told him
that he, Heinze, had violated the
laws of Montana in some of his cop-
per transactions there. Brennan, he
said, threatened to start the law
after Heinze if not paid \$40,000.

The first threats were made by
letter, according to Heinze, and get-
ting no satisfaction in that way,
Brennan came to New York and vis-
ited Heinze in his Broadway office.
The detective was assigned to in-
vestigate and had Heinze make an ap-
pointment with Brennan for yester-
day. Before the appointed hour the
detective concealed himself in a
closet where he could see and hear
all that was said.

According to the police, after a
conversation, Heinze made out three
demand notes for Brennan. One was
for \$15,000 and two were for \$12,500
each. After these notes had been
made out and passed over to the
Butte man the detective placed him
under arrest. Although he had no
bondsmen in court when bail was
fixed at \$5,000, Brennan said he
thought he could furnish it without
trouble.

In Spanish-American War.

Indianapolis, Ind., May 8.—Edward
E. Brennan, arrested in New York
last afternoon, is a son of Dr. E. J.
Brennan, of this city. He served in
the Spanish-American war as a mem-
ber of the Twenty-seventh Indiana
battery, married here, and, after prac-
ticing here, moved to San Francisco,
where he and his wife were divor-
ced. Later he moved to Butte, Mont.

Brennan's Position in Butte.

Butte, May 8.—Attorney Edward E.
Brennan was counsel for A. B. Clem-
ents, former cashier of the Aetna
Banking and Trust Co., in whose
failure F. Augustus Heinze was in-
volved. Clements was acquitted of a
charge of violating the state laws
governing banking institutions.

Death of C. O. Oliver.

C. O. Oliver, aged 63 years, who
was taken ill with Bright's disease
last afternoon, died at 7 o'clock this
morning at his home, three miles
west of Sedalia. He is survived by
his wife, two daughters and two sons.
Funeral services will be held at
Oak Grove church at 1:30 o'clock p.
m. Saturday, and interment will be
in the Dresden cemetery.

Would-Be Burglar Was Foiled.

An attempt was made last night
to rob the saloon owned by Block-
berger & Buske, on West Main
street. The intruder gained entrance
through the rear instead of the
saloon and was discovered.
The night restaurateur discovered
the man and called for assistance.
In the meantime the intruder es-
caped, not, however, until the police
had fired two shots at him.

They Will Wed on May 17.</

WE SHOULD OWN OUR EM-
BASSIES ABROAD.

A bill has been introduced in con-
gress appropriating \$400,000 for the
acquisition of an embassy building
in Paris. A provision in the diploma-
tic and consular appropriation bill
for a similar amount was stricken
out, after lengthy discussion, on the
ground that it was general legisla-
tion, and a separate measure was
then introduced. This bill is the ini-
tial move in what, if it is passed, is
expected to become the general pol-
icy of the United States in the erec-
tion or purchase of buildings for the
housing of its ambassadors in for-
eign capitals. In all probability the
proposal will arouse much opposition
in congress, both because of the ex-
pense it would involve and because
of the precedent it would set. If an
official home costing half a million
dollars is built in Paris, others, equa-
ly expensive will have to be provid-
ed for our ambassadors to England,
Germany, Russia and perhaps other
countries. There are many people,
and they have their representatives
in congress, who will look upon such
an expenditure of money as an ex-
travagant show of wealth, inconsis-
tent with democratic standards at
home and the principles upon which
our institutions rest.

But it must be remembered that
the acquirement of these embassies
has its practical and utilitarian side.
In respect as an imposing embassy
clothes our foreign representatives
with increased dignity, independence
and influence, it is of real value. Di-
plomacy is a game with many checks
and balances. Not its least effective
instrument in the courts of the great
world powers is the establishment
through which it is conducted. It is
a notorious fact that our represen-
tation in some of these courts has at
times suffered through the limita-
tions of our embassies, and the
economies our ambassadors have
been forced to practice. The need of
suitable homes for our diplomats

has long been felt and recognized by
the state department.

It is the custom of other nations
to furnish these establishments and
the United States should conform to
the international practice commensu-
rate with its position as a world pow-
er. Viewed from this standpoint, the
acquisition of suitable embassies is
a necessity, which the government
should no longer delay in providing

JOSEPH G. CANNON.

Speaker Cannon is a candidate for
the republican nomination for presi-
dent; at least, he and a number of
his friends are possessed of the be-
lief that he is. He has a few dele-
gates pledged to his candidacy—not
quite all from his own state—and one
or two from the outside to fill up
the gap. Here and there men of
prominence have been disposed to
look upon his ambition seriously. A
good many laudatory things have
been said about "Uncle Joe," most
of them, however, extravagant asser-
tions of the kind uttered by Con-
gressman Fordney when he is after
a committee promotion.

The speaker's popularity in the
house, if analyzed, would probably
be found to rest upon elements some-
thing like these: A disregard of po-
lite conventionalities; a fund of
rough and ready stories; a cigar
dilted at an iconoclastic angle from
his mouth; a willingness and re-
sourcefulness for political intrigues
practically unlimited.

If the speaker stands for any great
policies of aggressive administration
his record and his speeches of the
day fail to reveal them. He has been
in congress almost a life time, yet
we find no constructive legislation of
consequence to his credit. We dis-
cover in him the author of none of
the leading principles of political
government which have come to be
regarded as the questions of the day.

On the contrary, he is a reactionist
of the most confirmed type. His in-
fluence and his work in congress are
almost of a negative character. He
uses his power not to advance leg-
islation which the people demand,
but to delay, emasculate and pre-
vent it. He is the living embodiment
of stand patism applied to every-
thing within the range of administra-
tive policy. His childish hostility to
tariff revision is only one of his
many bourbon foibles.

At the present moment he has
adopted an obstinate stand against
the repeated demands of the presi-
dent for laws which are obviously
and pressing needed by the coun-
try. Nothing but a conscientiousness
of his own short comings and the fu-
tility of his political aspirations could
support a man of Cannon's experi-
ence in his do-nothing extremes. He
apparently realizes that if he had
"existed" a generation ago when the
republicans could win by defying re-
form, he would have made an ex-
cellent nominee, but now that his
days are about over, he is determined
to use his obstructionist tendencies
in blocking the road for those who
have moved forward.

If H. H. Rogers wins his damage
suit against the government, it had
might as well go into the hands of
a receiver, for think of the claims
that Harriman and Rockefeller would
file!

The sultan of turkey has paid
\$400,000 for a new diamond. And
there are some who think Turkey
isn't progressive.

If all the Kentucky feudists could
be corralled into one county the ex-
termination would be accomplished
much sooner.

When financiers like George J.
Gould see the silver thing it evi-
dently is not wholly a delusion.

\$70 GREW TO \$903 IN BANK

Many Heirs Fought for Deposit After
Fifty Years.

Boston, May 8.—By yearly accumu-
lation of interest, \$70 which Cath-
arine Kiernan deposited in the Ran-
dolph Savings bank in 1853 became a
legacy of \$903.26, which numerous
lawyers and twenty-seven heirs found
worth fighting for in the Dedham su-
perior court.

Miss Kiernan became insane about
ten years after depositing the money,
and died two years ago. The bank
claimed the account had been credit-
ed to another person of the same
name. The case was decided in favor
of Joseph J. Henry, one of the heirs.

SHORT A HALF MILLION

PITTSBURG BANK CASHIER IS
ARRESTED ON CHARGE OF
EMBEZZLEMENT.

THE AMOUNT MAY BE \$1,000,000

William Montgomery, Socially and
Politically Prominent Blaine
All the Bad Loans to
Speculators.

Pittsburg, Pa., May 8.—William
Montgomery, cashier of the Allegheny
National bank, was arrested last
evening on a warrant charging em-
bezzlement. His shortage is said to
be \$469,000, but there are rumors
that it will be far in excess of that
amount, probably more than \$1,000,
000.

Soon after his arrest, Montgomery
was released under \$50,000 bail. Geo.
E. Tener, a brother of John K. Tener,
republican nominee for congress in
the Twenty-fourth district, signing
his bond.

Henry Reiber, former paying teller
of the Farmers' Deposit National
bank, who, with James Young, former
auditor, are in jail, gave information
which led to Montgomery's arrest.

A hurried examination of Mont-
gomery's books was made and suffi-
cient evidence was found to cause
William Stuart, the president, to send
for National Bank Examiner William
L. Folds.

Folds arrived from Philadelphia
last afternoon. He soon discovered
a defalcation of \$463,000 and swore
out a warrant for Montgomery.

For years the Allegheny National
bank has been the headquarters of
republican politicians. The late Sen-
ator M. S. Quay always made the
bank his headquarters, and during all
of the Quay campaigns "Billie" Mont-
gomery, as he was known to every
one here, handled the Quay money.

Most of the Allegheny county re-
publican leaders of the present day
are interested in the bank. Secretary
of the Commonwealth Robert McAfee
being one of the directors.

Montgomery has been known for
years as a man about town, but in
spite of that he was considered a con-
servative business man. He was al-
ways thought to be wealthy.

When arrested the only statement
he would make was that he had not
a penny of the money left, nor has he
any of his own. He declares that he
has loaned large sums to speculators,
and who, when he called on them to
return the loans, were unable to pay.
The stability of the bank will not
be affected. Both the city and state
carried accounts at the bank; the
state account being in the neighbor-
hood of \$500,000.

Former Clerk Short \$29,900.

Mobile, Ala., May 8.—Expert ac-
countants employed by Mayor P. J.
Lyons last afternoon reported a
shortage in the books of former City
Clerk R. B. Owen to the amount of
\$29,900. A special meeting of the
general council has been called to
take action on the matter.

PADUCAH WINS PHONE FIGHT

Company Finally Agrees to Bid on
Franchise.

Paducah, Ky., May 8.—After a long
and bitter fight with the city, the
East Tennessee Telephone company
last night offered to compromise by
purchasing a franchise and agreeing
to start its bid at \$500.

The city has been attempting to
force the company to purchase a
franchise for four or five years, and
the company has stubbornly refused
to bid. Recently the city ordered all
the old phones taken out of the city
buildings, including the fire and po-
lice departments, which had the ef-
fect of driving hundreds of sub-
scribers from the East Tennessee
company to the Home company.

DEATH CLEW IN FINGER NAILS

Corpse to Be Searched for Skin Miss-
ing From Suspect's Face.

Portland, Ore., May 8.—It has been
decided to disinter the murdered body
of Nathan Wolff, the pawn broker, for
the purpose of examining the finger
nails to ascertain if there is any trace
of the skin of the murderer under
them.

The neck and hands of E. M. Mar-
tin, a West Point graduate, under ar-
rest in connection with the case, are
severely scratched, and the police be-
lieve the scratches are the result of
an encounter with Wolff. Martin
claims to have been scratched by a
cat.

What is believed to be the "missing
link" in the chain of circumstantial
evidence against Martin has been
supplied by the testimony of A. W.
Field, a watchmaker in the employ
of Wolff, who has positively identi-
fied Martin as the man whom he saw
talking with Wolff on the afternoon
of the murder.

St. Louis, Mo., May 8.—Department Commander John M. Williams of the department of Missouri, Grand Army of the Republic, and staff, will leave for Trenton, Mo., Monday to attend the annual encampment of the Grand Army. The veterans will follow Tuesday in a special train. About seventy will leave St. Louis. Blair post will send twenty representatives, Ransom post twelve, Hassenden post fourteen, and Lyon, Harding, Meunier and Shaw posts about five each.

The encampment will be Wednesday and Thursday. Camps from all parts of Missouri will send men, and

500 are expected to attend. Special delegations from Joplin and Sedalia are expected, as posts at those two towns have asked for the next meeting.

Charles G. Burton, commander in chief of the Grand Army, will be present. Kansas City and St. Joseph, Jefferson City and Moberly will send large delegations. The Women's Relief corps will attend, as will the ladies of the Grand Army, who will hold their annual meeting there. A large number of the Sons of Veterans will also attend.

A BRILLIANT SPECTACLE

AMERICAN FLEET WITNESSED BY THOUSANDS IN BAY AT FRISCO.

SECY. OF NAVY METCALF PRESENT

Impressive Exhibition by Atlantic and Pacific Fleets, Admiration of All Nations, Made on Pacific Coast Today.

San Francisco, May 8.—Admiral Evans was not well enough to go on board his flagship, the Connecticut, today to participate in the review. His condition is the result of fatigue from the ride of yesterday.

San Francisco, May 8.—While hundreds of thousands of people gazed upon the spectacle from every point of vantage along the water front, Secretary of the Navy Metcalf today reviewed the combined Atlantic and Pacific fleets in San Francisco Bay.

The review was by all odds the most impressive exhibition of the strength and power of the American navy ever witnessed, and it was small wonder that the eyes of the naval secretary, the executive director of the great sea-fighting machine, glistened with pride and that his fellow Californians expressed their approbation in deafening cheers.

Spick and span, with gleaming paint and shining brass, with every man at his post of duty, the vessels of war passed before Secretary Metcalf and boomed forth a thunderous salute in his honor.

This evening Secretary Metcalf and the admirals of the fleet will be the guests of honor at the San Francisco banquet at the St. Francis, which promises to be the greatest function of its kind ever held on the coast. There will be more than 600 at the dinner, which will cost \$20 per plate. While the officers are dining the sailors will continue their athletic carnival in the naval pavilion to night.

Today's review is doubly memorable as marking the end of the career of Rear Admiral "Fighting Bob" Evans. Although he will not reach the statutory age for retirement—62 years—until August 18, the condition of his health forbids further activity. Rear Admiral Thomas will be in command of the fleet during its stay on the coast, but to Rear Admiral Sperry will be given the honor of taking the "big sixteen" back to the Atlantic coast by circling the globe.

The Pacific fleet, which took part in today's review, will sail tomorrow for the south to carry out a program of drills, maneuvers and exercises. Tomorrow will be Oakland day, when the festivities incident to the visit of the fleet will be temporarily transferred to that city. On Sunday there will be special services in all of the churches and in the naval pavilion.

In addition to a grand ball for the enlisted men on Tuesday night, daily athletic meets and other amusements and a number of trips are scheduled for next week. The program of the sight seeing committee is an extensive one and includes the following events:

Monday, May 11.—Automobile run through the city for Secretary Metcalf, distinguished visitors and officers of the fleet. Observation car rides for 1,000 enlisted men, starting from Ferry building at 8:30 a. m., 11 a. m., 1:30 p. m. and 4 p. m.

Tuesday, May 12.—Excursion to Vallejo for 500 officers and men of the fleet.

Wednesday, May 13.—Trip to Mt. Tamalpais and Muir woods, with luncheon at Mount Tamalpais for 200 officers of the fleet. Car rides for 1,000 enlisted men, as on Monday. Trip to San Jose for 500 officers of the fleet, with grand ball in the evening.

Thursday, May 14.—Berkeley day. Friday, May 15.—Car rides for 1,000 enlisted men, as on Monday and Wednesday.

Saturday, May 16.—Santa Rosa day. Excursion to Santa Rosa for twenty-five officers and 175 enlisted men. Second trip to Mount Tamalpais and Muir woods for 200 officers.

NEHEMGAH CLUB MEETING

There Was Interesting Debate and Election of Officers.

At last night's meeting of the Nehemgar club there was an interesting debate on the subject, "Resolved, That the Government Ownership of Railroads is Desirable."

W. W. Blain and George Barnett represented the affirmative and Mark McGrunder and C. C. Lawson the negative side of the question. Henry Brosing, J. P. Gass and Dr. A. J. Tecker

were appointed judges and decided in favor of the affirmative.

The former officers of the club were re-elected: Prof. G. V. Buchanan, president; Mrs. U. G. Stevens, secretary and treasurer, and Dr. I. L. Lowe, critic.

It was decided to hold the annual social meeting a week from Saturday evening. A musical program will be given and there will be light refreshments and toasts and a dramatic entertainment in charge of Mrs. H. A. Pratt.

Tickets will be left at Dunlap's the early part of next week and any active member of the club by paying 25 cents can secure five tickets to the entertainment.

NEW YORK GIRL GOT FATHER'S LIFE SAVINGS, \$1,400.00, AWAY FROM HIM.

PROMISED TO MAKE HIM WEALTHY

Claimed She Had Made Investments With a Broker, and Dividends Were Certain, But Played the Races Instead.

New York, May 8.—She is no more a daughter of mine, falteringly said old Conrad Ochs of his child Amelia: "She shall never enter my house again."

Amelia, it would seem, has been blinded by Broadway's glare, cajoled by Wall street's false promises, and, as if that was not enough, has sought wealth by betting on the horses.

She deceived her father, a hard working cabinet maker, who gave her \$1,500, his life's savings, to invest. Only her old mother's tears saved her from the disgrace of arrest on her father's accusation of theft.

Hysterical, remorseful, she tried to jump from a window when Detective Fogarty found her, but it is safe to predict her father will further relent and give her his forgiveness.

Miss Amelia, a pretty and plump girl of 23, was a stenographer in a broker's office in Wall street. Her father, who lives at No. 449 East Eighth street, complained at police headquarters that she had disappeared from home. Amelia had made him golden promises, that "knowing Wall street" as she did, she would double any investment he would make there.

"That was lost last October," said the old man, "and finally in December I drew \$200 of my savings and gave them to her to invest."

This was followed soon after by two more withdrawals from the hard-earned savings account, the first of \$400 and then the entire balance of \$800.

According to her father, Miss Amelia gave him receipts for the money, which purported to be from a stock broker, but the name signed to them he learned was a fictitious one.

Ochs said he finally asked his

No. 2, Small Family Size, \$1.35.

The hands do not touch the dough. Think what that means from every point of view. No pans, bread boards, crocks and fingers to wash up—only the pail itself. Everything tidy and the bread as good as can be.

The peculiar shape of the "Universal" kneading rod enables air to be worked into the dough, making it lighter than would be the case by hand. Besides, no flour has to be used as by hand, for the dough does not stick to the sides of machine any way.

After a trial or two you can get the dough just stiff enough to turn easily and yet come out nicely when ready for the bread pans; it should lift right out, as seen in the illustration. Family size, \$2.00.

AUTO RIDE REFUSED THAW

Slayer Spends His Time in Sheriff's Bedroom.

Poughkeepsie, N. Y., May 8.—Harry K. Thaw, occupying Sheriff Chanler's big bed room on the top floor of the Dutchess county court house, yesterday requested the privilege of a ride in an automobile with a keeper, but the request was refused.

Thaw spent some time yesterday preparing notes on points in his case, which he desires his counsel to bring out in the inquiry into his sanity, which is to be begun next Monday before Justice Morschauser.

Thaw refuses to talk to visitors, fearing that he will be quoted in some way that will prejudice his case. He expects to call some of the jail attaches as witnesses to his sanity.

THE PIPE LINE TO CLINTON

Sedalia Parties Have Submitted a Proposition.

J. J. Cundiff, of Sedalia, who is one of the promoters of the natural gas pipe line proposition, and C. C. Kelly, attorney for the company, were in Clinton yesterday in conference with business men with regard to their plans, says Thursday's Clinton Democrat.

The company has under option sev-

eral thousand acres of gas producing land near Pleasanton, Kas., and several flowing wells indicate an inexhaustible supply of illuminating and fuel gas if the field is properly developed. It is proposed to pipe it through to Sedalia, via Butler. From Butler, two routes are available, one via Clinton and the other via Warrsburg.

Mr. Cundiff submitted a written proposition to George S. Holliday, chairman of the Commercial club, which he authorized Mr. Holliday to present to the business men of Clinton for their consideration and by which we can get the natural gas pipe line for Clinton.

Mr. Holliday has called a meeting of business men at the court house at 8 o'clock tonight to consider this proposition and take action.

All are interested in getting natural gas to Clinton and every one should be present.

TRAGEDY AT BEER FEST

LUKE BROWN SHOT TO DEATH IN QUARREL OVER RACING IN ILLINOIS.

A SISTER PLEADED FOR HIS LIFE

Slayer Snaps Revolver at Girl—The Shooting Follows Closing of Carmi Saloons—Surrender of the Murderer.

Carmi, Ill., May 8.—As a sequel to a quarrel over horse racing and a day spent in drinking, Frank Cherry, aged 28, shot and killed Luke Brown, aged 27, at the latter's home, six miles northeast of this city.

Wednesday night Brown bought a keg of beer before the saloons closed, and yesterday he invited Cherry and other neighbors to help him drink it.

About 4 o'clock Cherry and Brown began quarreling over horse racing, and called each other harsh names.

Bystanders kept the two men apart, and Brown was locked in his own barn. Cherry was then warned to leave the horse lot, and was doing so when Brown broke from the barn.

He started in pursuit of Cherry, when the latter turned and drew his revolver. The two men were grappling with each other when Cherry fired. Three shots were fired, the last one piercing Brown's heart.

Brown's sister attempted to separate the two struggling men, and begged Cherry to shoot her instead of her brother.

As Brown fell dead Cherry snatched the smoking pistol at the sister, but fate ruled in her favor, and the cartridge did not explode.

Cherry then made his way to the home of his mother, where he surrendered. He was brought to this city by Sheriff Grissom and placed in the White county jail.

Cherry claims he acted in self-defense. The men had been good friends up to the time of the tragedy.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ of the prize ring as well as in life. We protect our heads, throats, feet and lungs, but the stomach is utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Dr. Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

ABOUT THE GOULD LINES

THEIR PHYSICAL CONDITION AND TRAFFIC-MOVING ABILITY.

WERE BUILT UP FROM EARNINGS

Some Facts of Interest to the General Public Regarding One of the Very Best Railway Systems in the Country.

The Gould lines, as a general proposition, have not that comfortable, well-to-do appearance that distinguishes such other western and southwestern roads as Union Pacific, Burlington and Atchison. The dress of a track impresses the casual observer; it is very often the only aspect from which the individual draws his conclusion of the character and stability of an entire property. Let two roads run side by side, the one rock ballasted, well evened up, tidy and neat in appearance, the other with ballast of cinders or sand, and, in nine cases out of ten, the observer will pick the former as the ranking property, eliminating altogether the question of its grades, the condition and capacity of its equipment and power, its terminal facilities and the roadbed and bridges.

There are portions of the Wabash main line beyond which one need not look for quality in physical appearance. The same is true of parts of the Texas Pacific, notably on the Louisiana division, which has been built and maintained under great difficulties on account of the shifting character of the underlying soil; also of sections of the Rio Grande division, which was recently commended by the Texas railroad commission. At least 40 per cent of the new White River division of the St. Louis and Iron Mountain road displays as fine track and bridge work as is to be found in the southwest. The Denver and Rio Grande, at least that which is standard gauge, is in excellent physical shape for this season of the year.

On the other hand, criticism might be made of the condition in which one finds some section of the main line of the St. Louis and Iron Mountain in Arkansas, and of the Colorado division of the Missouri Pacific through Central Kansas.

There is not a road in the United States today whose physical appearance and actual condition is anywhere near the ideal set by the maintenance of way department. It is simply impossible, under the present contingency of large floating debts, a slump in traffic unprecedented high cost of labor and materials, to spend the money fair would normally be appropriated for betterments. Like every other system, the Gould roads have cut down their current charges to a minimum. The \$2,500,000 reduction in Pennsylvania railroad February operating expenses, on lines east and west of Pittsburgh, meant heavy sacrifices in physical condition, some of which are obvious. The same is true of many other lines. The American railroads have never faced the necessity for strict economy in just the way they are facing it today.

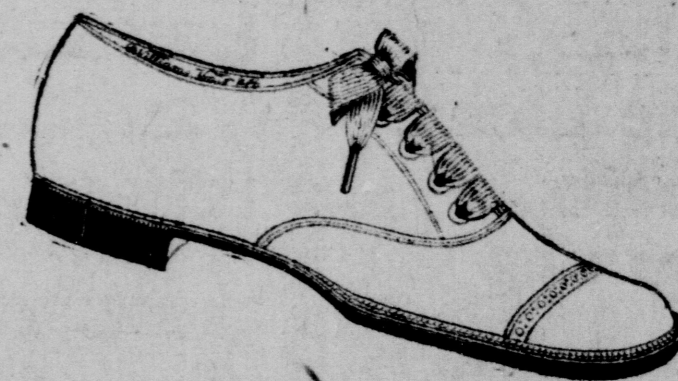

It is possible to build a railroad to a standard beyond the requirements of its tonnage. Many millions have been squandered in trying to reproduce Pennsylvania standards in territory where the density of traffic bears about the same relation to that on eastern lines as does silver to gold.

No one would accuse the management of the Gould lines of following this policy. On the contrary, they may appear to have been too narrow in their views of what a road will stand in improvements. As a matter of fact, if one studies this phase of the situation one will be impressed, not so much by what has been apparently neglected as by what has been accomplished with the means at hand.

A fault that might be found with the Gould policy is that too great reliance on current earnings for development projects. Just now this policy stands the test of criticism, as it has its recompense in smaller fixed charges that would have had to be met if the improvements had been capitalized. Under all circumstances it leads, at times, to a contraction in cash resources of inconvenient size.

In proportion to its gross earnings no other system has spent more from current revenues for those improvements that enlarge the carrying capacity and reduce the carrying charge than has the Gould system.

The practical reconstruction of the Wabash railroad from earnings stands out as one of the conspicuous railroad achievements of this generation. In one year, 1905, the appropriations for this account from current revenues amounted to more than \$3,400 per mile. Between 1901 and the end of 1907 the Texas Pacific

TO BUTTON GOOD COWS' EARS

Healthy Animals to be Distinguished
From the Infected.

Chicago, May 8.—Every healthy Chicago cow is to have a tuberculosis test button clamped in her right ear.

This is the latest step in the crusade against impure milk. Four veterinarians, working under the direction of the laboratory division of the health department, are busy making tests and clamping buttons.

About 2,000 cows are within the jurisdiction of the department. They will be tested for tuberculosis and killed if found diseased. If not diseased, the cow will be marked "O. K." with an aluminum button.

QUEER CHINESE FUNERAL

Heathen Had Died at Hospital of Cancer of the Liver.

A German band, fourteen cobs and a laundry wagon escorted the body of Wong Pong from Smith & Co.'s undertaking rooms to Fairmount cemetery yesterday afternoon. There was little ceremony at the undertaker's chapel. In fact, no ceremony was noticeable. Forty of his countrymen gathered to view the remains and discuss the evil spirits. The occasion needed only refreshments to resemble an afternoon tea, says the New York Times.

Until a week ago last Friday Wong Pong polished collars and operated a mangle in the laundry establishment of Long Lee at 210 Bernard street. Last Friday he died at the Sacred Heart hospital from cancer of the liver.

Just who was in charge of the obsequies yesterday afternoon could not be ascertained. A general interest was exhibited by everyone present. At the proper stage in the ceremonies a break was made for the carriages, the band struck up a funeral march and the cortege led off the way to the cemetery.

Wong Pong having been an Americanized Chinaman, the ceremony followed closely on American lines. White gloves adorned the hands of the six pallbearers who deposited the coffin in the hearse. Red and white ribbons decorated each carriage, which were found upon inquiry to designate the "tong" or society to which Wong Pong belonged. Back of the last carriage came the laundry delivery wagon which Wong had driven for several years. In it were his earthly effects, which were taken to the cemetery and burned beside the grave, that they might accompany his spirit to whatever Chinese heaven he was destined to enter.

HOW WALLS BREATHE

This May Tell You Something That
You Did Not Know Before.

Looking up at the ceiling of a room which is whitewashed or kalsomined dark streaks can frequently be detected, which, at first glance, seem to correspond with the shape of the lath overhead. These streaks are so faint oftentimes that they cannot be detected unless against a light background. Instead of revealing the shape of the lath, as people would at first suppose, the streak outlines the space between the laths, and this is the explanation—walls breathe.

Through a newly plastered wall, without decoration or covering of any kind, pass eight cubic feet of air for each square yard of wall surface per hour. This naturally creates a slight suction, and the air passing between the lath, draws with it fine particles of dust, which are responsible for the dark streaks across the ceiling. The same breathing goes on through the side walls, but these dark streaks are not noticed there for the reason that the greatest suction seems always to be upward, says the Baltimore Sun.

Health Commissioner Evans, of Chicago, recently said: "More people died last year in Chicago of pneumonia than from any other single cause, and pneumonia can be largely traced to bad ventilation. Bad air is the bane of human life."

More and more each year the latel-

GLAD HE GOT A DIVORCE

MRS. MAURER CONGRATULATES
HER RECENT HUSBAND IN
'PHONE TALK.

WILL WED AGAIN IN NEAR FUTURE

St. Louis Business Man, Whose Name She Withholds, Is Her Intended
—She Will Do Better
Next Time.

St. Louis, Mo., May 8.—"Hello, hello, is this Mr. Maurer?"

"Well, Mr. Maurer, this is Mrs. Maurer. I want to congratulate you on your divorce today. Aren't you glad? I think it is the best thing that could have happened. Our marriage was a failure.

"Now, don't be foolish again. If you marry don't let your mother interfere with your affairs. I wish you success and happiness. "Same to me? Thank you. "Good-bye."

In these words Mrs. Irene Frances Maurer, who came from New York to be present in the city while her husband's divorce suit was being tried, offered him her congratulations by telephone, after her attorney, Judge Talty, notified her that the decree had been granted by default. She did not appear in court.

Mrs. Maurer, who is a brunette, is staying at the Planters' hotel. When seen by a reporter Thursday she admitted her engagement and coming marriage to a St. Louis business man, whose name she declined to disclose.

"I intend to go abroad for a time and may be married while away. I am preparing my trousseau and will do some of my shopping in New York. I do not intend to purchase my trousseau abroad. American things suit me very nicely.

"I am coming back to live in St. Louis. I love St. Louis, and would not live anywhere else. I have no intention of taking up a theatrical career, but shall keep up my vocal work.

"My marriage with Mr. Maurer was unpleasant. I was so young when I married him and he is twelve years older than I.

"My husband's mother was opposed to his marrying me in the first place and after the marriage she used to tell him I was extravagant.

"He stayed away from home a great deal and many a time I would cook a meal at 11 or 12 o'clock at night when he came home late and the maid had retired.

"He didn't have his telephone taken out, and naturally a woman would inquire where her husband is, but it isn't true that I annoyed him about it. He published notice that he would no longer be responsible for my debts, but we were reconciled after that.

"I believe my next marriage will be happy."

Mr. Maurer is manager of four meat and provision stores. It is said a financial settlement for Mr. and Mrs. Maurer was made by the attorneys out of court.

Mr. Maurer told a reporter that he was well pleased with the verdict, and didn't care how much his former wife talked to the newspapers about it.

HID THE CASH IN A VAULT

HUSBAND WON THROUGH AN "AD" DIDN'T HAVE FAITH IN THE BANKS.

DETECTIVES ARE LOOKING FOR HIM

Elderly Widow Says He Was a Good Reader and Dressed, Too, but That Was About All There Was to Him.

New York, May 8.—"That is where my husband built a concrete vault to hold my money when I took it out of the banks last October," said Mrs. Margaret Ahnert to a correspondent last night. She pointed to a big hole in what had been a stone mound in the cellar of her handsome home, 259 East Two Hundred and Third street, Bedford Park.

"In that hole," said Mrs. Ahnert, solemnly, "is all I have to remember my money and my husband, Hugo. He was my fourth, too."

The woman sighed deeply and then said detectives at the Bronx bureau had been searching for her recalcitrant spouse, \$3,000 in cash, valuable deeds and \$2,000 in jewels.

After three ventures in matrimony Mrs. Ahnert advertised in a newspaper for a husband. She met Ahnert, who was 58 years old, dressed like a nobleman and came from Dresden, where the widow was born 58 years ago. Ahnert had been in the stone and concrete business. They were married January 24, 1907.

Mrs. Ahnert owned some flats in East One Hundred and Sixth street, but her husband persuaded her to sell them and buy a house in Bedford Park. Then he said she should have an automobile and she bought that. He said he would give up his business to look after her property, but the deserted wife said she never found that he had any business.

When the financial depression came last fall he advised that she withdraw from banks and safe deposit boxes all her valuables.

"I will build a safe vault in our own home, dearest," he said. "There we will keep the money where none of these swindling bankers can get it." He dug a hole and concreted it, fixed up a little stone wall around it and all the deeds, cash and jewels were deposited in an iron box and placed inside. Each evening husband and wife, arm in arm, would look fondly at their treasure vault and then return upstairs, while he would read to her of the latest bank failures and financial troubles. He was a good reader, the wife said.

Only one message ever has come from Ahnert, the wife said. About a month after his disappearance she received a letter inclosing a key to the front door of their home. He had carried it off inadvertently, he said. He apologized for his carelessness.

TWO BIG ROWING EVENTS

COLUMBIA VS. ANNAPOLIS AND NEW YORK VS. GEORGETOWN UNIVERSITY.

VERY MUCH INTEREST MANIFESTED

Events Will Take Place on Potomac and Severn Rivers—First Race Is to Be Five Hundred and Fifty Yards.

New York, May 8.—Two important rowing events, the first of the present season, will be decided tomorrow, when the crews of Columbia and Annapolis will row a match race over the Severn river course, and New York university and Georgetown university will meet on the Potomac. Columbia has developed a fast crew and the crack oarsmen who will represent the big Morningside institution will give the middles a run for their money.

Much interest is manifested in the race between the New York university and Georgetown eight-oared crews, which will be held on the straightaway course on the Potomac. The distance is one mile and 550 yards.

Georgetown has maintained a crew for a number of years, and the southern university has been a factor in all the intercollegiate regattas. New York university is a newcomer in rowing circles and has never entered one of the big regattas. Despite this apparent disadvantage the Violet seems to have an excellent chance to win from Georgetown.

THE BEST MOTHERED BABIES

Death Rate Appalling Among Rich, Says an Expert.

New York, May 8.—The Rainy Day club yesterday learned something about American mothers and American babies that it did not know before. Wilbur C. Phillips, secretary of the New York milk committee of the Association for Improving the Condition of the Poor, which is to open seven new infants' milk depots on June 15, was one of the speakers.

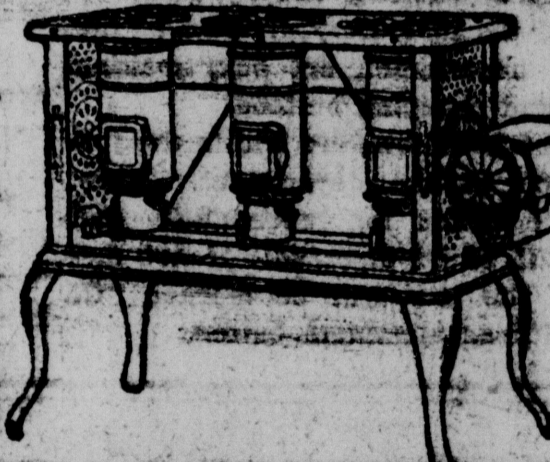

"In twenty-eight uptown blocks, in the neighborhood of the Plaza, and around Fifth avenue, there were born in one year thirty-seven children, while in four east side blocks, with equal population, there were born 370 children," said Mr. Phillips.

"If we wish good mothers, we must import them," Dr. George Color, of Rochester, says. There are not only few births, but there is an appalling death rate among the better class of American children. This is not due to the milk, but to mothers, to atrophy, premature birth and prenatal influences."

SUICIDE AT LAMONTE

Miss Lydia Miewauld, of Cole Camp,
Aged 21 Years.

Miss Lydia Miewauld, of Cole Camp,
26 years old, and an orphan from in-
fancy, was found dead in a room at
Lake View hotel at Lamonte yester-
day afternoon. Investigation by phy-
sicians revealed that death resulted
from an overdose of morphine, evi-
dently taken with suicidal intent.

Miss Miewauld spent several days
in Sedalia this week, and, accompa-
nied by George Glinder, of Lamonte,
went there yesterday afternoon. She
proceeded to the hotel, where her
body was found by an attaché of the
hostelry several hours later.

Dependence over love affairs is
assigned as the cause.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this
country most dangerous because so decep-
tive. Many sudden deaths are caused
by it—heart dis-
ease, pneumonia,
heart failure or
apoplexy are often
the result of kid-
ney disease. If
kidney trouble is
allowed to advance
the kidney-poisoned
blood will at-
tack the vital organs, causing catarrh of
the bladder, or the kidneys themselves
break down and waste away cell by cell.
Bladder troubles almost always result
from a derangement of the kidneys, and
a cure is obtained quickest by a proper
treatment of the kidneys. If you are feel-
ing badly you can make no mistake by
taking Dr. Kilmer's Swamp-Root, the
great kidney, liver and bladder remedy.
It corrects inability to hold urine and
scalding pain in passing it, and over-
comes that unpleasant necessity of being
compelled to go often through the day,
and to get up many times during the
night. The mild and the extraordinary
effect of Swamp-Root is soon realized.
It stands the highest for its wonderful
cures of the most distressing cases.

Swamp-Root is pleasant to take and is
sold by all druggists in fifty-cent and
one-dollar size bottles. You may have a
sample bottle of this wonderful new dis-
covery and a book that tells all about it,
both sent free by mail. Address, Dr. Kil-
mer & Co., Binghamton, N. Y. When
writing mention reading this generous
offer in this paper. Don't make any
mistake, but remember the name, Swamp-
Root, Dr. Kilmer's Swamp-Root, and the
address Binghamton, N. Y., on every

TOWN "DRIES" IN THE RAIN

Litchfield's 14 Saloons Close Down
Amidst Downpour.

Litchfield, Ill., May 8.—With the
apparent sympathy of the elements,
and amidst the downpour of a blind-
ing rain, 14 saloons closed their
doors in this city at 11 o'clock Wed-
nesday night, and yesterday North
Litchfield was "dry" for the first
time in history.

Part of the unsold moist goods was
moved across the township line to
South Litchfield, which was voted
"wet" at the recent election.
A movement has been started by
the saloon men in South Litchfield
to secede from North Litchfield and
to create an individual administra-
tion.

Will You Let Yours Die?

More chickens die usually from
bowel complaint and chicken cholera
than from all other diseases combin-
ed, and yet they are the easiest of all
poultry diseases to prevent or cure.

Bowel Complaint or Cholera

Can be cured in 24 hours by proper
use of Germozone—the poultry medi-
cine made by "Lee of Omaha." A tab-
let, or a teaspoonful of the liquid in
the drink occasionally is all that is
necessary.

Germozone is a germicide, a bowel
regulator, the best cure for all poultry
diseases—Bowel Complaint, Chole-
ra, Roup, Sore Head, Lumberneck,
etc.

Sick hens don't lay, sick chickens
won't grow. Keep them healthy and
productive by occasional use of Ger-
mozone.

"TENNIS TOURNAMENTS"

INAUGURATION OF THE SEASON
TO TAKE PLACE AT PRINCE-
TON, NEW JERSEY.

ABOUT 100 CONTESTS ARRANGED

United States Lawn Tennis Associa-
tion Will Be in Charge—Prince-
ton Students Will Open
the Season.

New York, May 8.—The 1908 sea-
son of lawn tennis tournaments in
the United States will have its inau-
gural tomorrow at Princeton, N. J.,
when the Princeton and interschol-
astic championships will be decided.

Nearly a hundred tournaments will
be held in various parts of the United
States, this year, under the sanc-
tion of the United States National
Lawn Tennis association.

Despite the growing popularity of
golf, there is apparently no diminu-
tion in the enthusiasm of the devo-
tees of tennis, and the season now
opening bids fair to be the most suc-
cessful in the recent history of the
association.

Harvard, Pennsylvania, Yale and
Columbia will hold their interschol-
astic championships next week, the
first two on Monday and the latter
two on Saturday, May 16.

Bowdoin will follow, on May 18
with its meet at Brunswick, Me. Dur-
ing the latter part of the month
tournaments will be held by the leading
clubs of Brooklyn, New York, Bos-
ton and Washington.

The tournaments at the national
capital will be held on May 24, and
will be for the middle Atlantic
states championship, while the meet
at the Hub, on May 25, will decide
the New England intercollegiate title.

On May 30 the Massachusetts state
championship in doubles will be con-
tested at West Newton.

Important events during June in-
clude the ladies' eastern cham-
pionship at Philadelphia on June 1; the
Pennsylvania state championship for
men at Philadelphia on June 8; the
championship of New England, at
Hartford on June 9; the Massachu-
setts championship at Boston on June
12; the Maryland state championship
at Baltimore on June 17; the nation-
al championship in women's singles,
doubles and mixed doubles at Phila-
delphia on June 15; the golf states
championship at New Orleans on
June 22, and the middle states cham-
pionship at Orange, N. J., on June
29.

July will open the western season,
with the California state cham-
pionship in men's and women's singles
in San Francisco on July 4, and the
central states championship at St.
Louis on July 4. The southern cham-
pionship will be decided at Atlanta
on July 6, and the south Atlantic
championship at Augusta, Ga., on
July 20. The New York state cham-
pionship will be held at Tarrytown
on July 20. On July 25 comes the
western championship in doubles
and singles for men and women at
Chicago. The state championships of
Delaware and Connecticut will also
be decided during July.

The state championships of Ohio,
Iowa, Maine, Vermont, North Dakota,
South Dakota and Nebraska are set
dates in August. Other important ten-
nis meets during August will be
those of the East Jersey association
at Elizabeth on August 25; the na-
tional championships of singles,
championship doubles and interschol-
astic singles at Newport, R. I., on
August 18; the Niagara international
and Canadian championships on
August 26, and the Ohio-Indiana-
Kentucky championships at Cincin-
nati on August 29.

The Pacific states championship
will be played at Del Monte, Cal.,
Sept. 7; the New Jersey state cham-
pionship at Morristown on Sept. 16,
and the district championship at
Washington on Sept. 23. The inter-
collegiate championship will be held
under the auspices of the Marston
Cricket club at Philadelphia on Oct.
5, and will be the last important
tournament of the year.

from a witness, in confidence, the
names of certain newspaper publish-
ers.

The incident arose during the tes-
timony of C. L. Knight, publisher of
the Akron, O., Beacon-Journal.

Mr. Knight stated that the increase
in the price of paper had wiped out
the profits of several papers in Ohio,
and had forced one of them to bor-
row money to meet its pay rolls.

When called upon by Chairman
Mann to give the names of these pub-
lishers he declined to do so.

He did say, however, that he would
give the names to the committee in
confidence, but Chairman Mann re-
fused to receive the names under
this condition.

A large number of publishers of
newspapers in different parts of the
country were examined yesterday,
and they all told the same story of
a steady advance in the price of pa-
per.

BECOMING A MOTHER

Is an ordeal which all
women approach with
indescribable fear, for
nothing compares with
the pain and horror of
child-birth. The thought
of the suffering and danger in store for her, robs the expectant mother
of all pleasant anticipations of the coming event, and casts over her a
shadow of gloom which cannot be shaken off. Thousands of women
have found that the use of Mother's Friend during pregnancy robs
confinement of all pain and danger, and insures safety to life of mother
and child. This scientific liniment is a god-send to all women at the
time of their most critical trial. Not only does Mother's Friend
carry women safely through the perils of child-birth, but its use
gently prepares the system for the coming event, prevents "morning
sickness," and other dis-
comforts of this period.

BURIAL OF MR. KELK

The Rev. James Parsons Conducted
Services Today.

The remains of Thomas Kelk, who
died yesterday at the home of his
granddaughter, Mrs. H. L. Cannon,
in Windsor, were brought to Sedalia
this morning, accompanied by sor-
rowing relatives, and taken direct to
McLaughlin Bros' undertaking rooms.
Funeral services were conducted at
the First Congregational church, of
which deceased was a member, this
afternoon by the pastor, the Rev.
James Parsons, Mrs. C. H. Bard hav-
ing charge of the music.

The interment was in Crown Hill
cemetery, the following friends of the
family serving as pallbearers: F. E.
Hoffman, sr., Lou Bernstein, Thomas
Adams, Samuel C. Fuller, Harvey
Keens and P. G. Stafford.

Mr. Kelk was a model citizen in
every respect, and since his retire-
ment from business had made his
home a good portion of the time with
his son, Charles T. Kelk, at Paoli,
Kas., the remainder of the time be-
ing divided between Sedalia and
Windsor.

Poor Old Sedalia!

IT COSTS THE CITY OF SEDALIA ABOUT \$1,095.00 EVERY DAY TO GET \$9.27 SALOON LICENSE. Sedalia gets but \$12,500.00 from the saloons; the state, county and rock road get the rest. For the last six years our criminal costs have averaged \$12,437.00 yearly, and \$9,947.00 of the cost is due directly to the saloons. So we really GAIN, according to this, only \$3,554.00 from the saloons. \$3,554.00 divided by 365 gives us \$9.27 daily gain from the saloons. Sedalia LICENSES the saloons to send about \$400,000.00 to the millionaire liquor men of St. Louis, Milwaukee, etc. \$400,000.00 divided by 365 gives \$1,095.00 daily cost for drink in Sedalia. When it costs the city \$1,095.00 a day to collect \$9.27 saloon license, isn't it clear why the city is in debt \$200,000.00? Is it queer why Sedalia's honorable merchants have such a hard struggle? Is it queer why you can't find a buyer for your property? Is it queer why your taxes are so high? Is it queer why no one but saloon men have the money to buy our auctioned property? Is it queer why no one will MOVE here, KNOWING that they have to suffer this enormous loss of money daily with us? Surely, this is not hard to see. Kansas City, Kansas, saw all this and profited by it.

PEERESS VERSUS ALICE

ROOSEVELT'S DAUGHTER TO GO ON STUMP FOR CONGRESSIONAL CANDIDATE.

IS TO OPPOSE COUNTESS WARWICK

President's Son-in-Law Will Push Campaign With Wife in the Eighth Ohio District.

Bellefontaine, O., May 8.—The countess of Warwick, England's famous socialist agitator, will be pitted against Mrs. Alice Roosevelt Longworth, daughter of President Roosevelt, in the congressional campaign in the Eighth Ohio district next fall. That both women will make speeches from the stump has just been learned.

Some weeks ago Representative Nicholas Longworth told Ralph D. Cole, republican nominee, whose lucky flipping of a coin broke in his favor a deadlock that had caused a second convention, that he and Mrs. Longworth would make speeches in the district of Cole, against whom a bitter fight is being made.

E. J. Wharton, of Kenton, socialist candidate, announced that the countess of Warwick had agreed to visit the district on a speechmaking tour in his behalf.

It is said that the countess will make a money contribution to the campaign, believing a chance to put a real socialist in the United States congress is at hand.

BLACK NEWSPAPERS SOON

Manufacturers Propose Printing With White Ink.

Appleton, Wis., May 8.—If a proposition put forth by Wisconsin printer manufacturers is carried to a

conclusion, Americans, in the near future, will be reading black newspapers printed with white ink.

The chief points advanced for this revolutionary proposition are the preservation of forests, the saving of millions of dollars annually in pulp wood and the reduction in price of print paper to perhaps one-half the present price.

Black paper can be made of old and used newspapers, and in fact, almost any fibrous stock, while white paper requires spruce or hemlock.

The proposition will be brought to the attention of print manufacturers and the publishers at the close of the congressional investigation in Washington.

\$1,500 PRICE OF GIRLS LIFE

Jury Awards Damages to Parents of Three.

Millville, N. J., May 8.—Fifteen hundred dollars is the price of a girl's life, as set by a jury in Cumberland county court yesterday.

In April, 1907, a huge brick stack fell at the glass works of T. C. Wheaton & Co. and killed Lydia Thurston, Lena Doughty and Sylvia Gallagher. Their parents brought damage suits.

Witnesses testified that the stack leaned eight or nine inches and rocked in the wind. The jury deliberated a short time and awarded \$1,500 in each case.

BRIBED ALDERMEN ARE FINED

Rockford Officials Plead Guilty Soon as They Are Indicted.

Rockford, Ill., May 8.—Edward Carly, an alderman, pleaded guilty in the circuit court yesterday to the charge of receiving a bribe and was fined \$3,000.

Patrick H. Reynolds, who resigned his seat in the city council two weeks ago, pleaded guilty to the same charge and was fined \$500.

The pleas were entered soon after the jury had returned indictments.

RUMBLINGS OF THE RAIL

EXECUTIVES OF RAILROADS WANT THE FREIGHT TARIFFS INCREASED.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

Presidents of practically all the leading railway systems east of the Mississippi river were in conference at the Trunk Line association offices in New York yesterday, considering the question of a general advance in freight rates.

The scale now prevailing with New York to Chicago as a basis divides rates into six classes, at from 75 cents to 25 cents per ton. No conclusion was reached yesterday, but the advance most favored calls for an advance to 85 cents as the maximum and 27 cents the minimum.

The entire matter will be left to the traffic officials of the roads interested for solution. They are likely to submit their reports by July 1, but such advances as may be recommended will hardly go into effect before November 1.

The importance of yesterday's meeting may be judged from the fact that those in attendance included President E. H. Harriman, President McCrea, of the Pennsylvania roads, President Newman, of the New York Central and other Vanderbilt lines, President Underwood of the Erie, President Murray of the Baltimore & Ohio and President Thomas of the Lehigh Valley.

Conductor Awarded Damages.

The view that a railroad employee who is riding on a pass is entitled to damages if injured has been upheld in the supreme court in White Plains, N. Y.

Damages of \$17,500 were awarded to James A. Halley, formerly a conductor in the employ of the New York Central, who was injured in the Brewster express wreck, on February 17, 1908.

Halley had been a conductor for more than forty-four years, and at the time of the accident was conductor of the Empire State express.

His right hand was so badly crushed in the accident that he has been unable to use it since. He sued for \$50,000. The company set up the defense that, as he was riding on a pass, he assumed all risks of injury.

Missouri Pacific Mishaps.

The "Red Ball" on the Missouri Pacific was derailed Wednesday night about 9 o'clock at the north end of the switch at Nassau Junction, about two miles to the southeast of Nevada. A defective tie was the cause of the derailment. The engine and thirteen cars left the track. No one was injured.

Missouri Pacific passenger train No. 399, in charge of Conductor Lane, was derailed Wednesday near Sedan, Kas. The cause of the derailment is said to have been soft track. A combination coach and two passenger coaches left the track. About twelve persons were injured. Mrs. William Brant, of Denver, Colo., had two ribs broken and one arm fractured and C. M. Smith, of Belle Plains, was badly injured.

Automatic Couplers.

J. W. Marcum, a Missouri Pacific engine wiper, is off from work on account of tonsillitis.

W. M. Patterson, a former street car conductor, went to Kansas City this morning on business.

Russell Hunter, night caller for the M. K. & T. reported for work today, after a brief lay off.

A. J. Alexander, superintendent of the Missouri Pacific, went to Kansas City this morning on business.

Tom Donohue, a Missouri Pacific machinist, leaves tonight for West Virginia to visit home folks.

The annual inventory of the material of the store room at the Missouri Pacific shops is now being taken.

C. A. Bean, a Katy brakeman, who has been running on the south end, was bumped yesterday by Brakeman Tapp.

M. K. & T. train No. 2, due here at 8:25 a. m., arrived over three hours late today, due to late southern connections.

Harry Smith, brakeman on the Katy; Lee Hodges, a Missouri Pacific employe, and Switchman Thelen are spending the day on Flat Creek.

S. G. Bigelow, a Katy telegrapher from Appleton City, is suffering with sore eyes, and will arrive here tomorrow to enter the company hospital.

"Jim" Hungerford, a Katy passenger conductor, is laying off, and V. S. Stone is filling the place, while Marshall DeHaven is taking care of the latter's run.

Missouri Pacific train No. 1, the engine of which was derailed this side of Kirkwood yesterday, arrived here four hours and thirty minutes late yesterday as a result of the accident.

Engineer Ellis has bumped Engineer Billow on the Versailles branch of the Missouri Pacific; and E. O. Leach, of Jefferson City, has bumped John Connolly as brakeman on the same run.

E. M. Dennis, Missouri Pacific trainmaster, today issued a bulletin to agents and conductors, requesting them to refuse to handle for shipment cars filled with live and dead stock together.

John Curtis, a Katy crusher laborer from Chockie, Okla., and J. F. Kennedy, a machinist's helper from Parsons, Kan., are new patients at the company hospital. The former is suffering from a wrenched back and the latter from an ulcerated shin.

CORPSE HALTS A BUILDING

A Will Forbids the Removal of the Testator's Body.

Chicago, May 8.—The plans for building a twenty-three-acre factory for the Iroquois Furnace company at Irving avenue and the Lakeshore tracks are held up because in the tract selected is the grave of Andres Zirnigbi, who died in 1855 and left a will forbidding the removal of his body.

Lawyers are of the opinion that the Iroquois company cannot get a clear title to the ground in view of the provisions of the will.

with Mrs. Sarah E. Cotton, of East Broadway.

Next Sunday the new pastor will preach at both the morning and evening services.

The Ministers' Alliance of Mexico, where Mr. Kokendoffer has been located, adopted the following resolutions of regret at his departure from that charge:

Resolutions by Pastors.

Mexico, Mo., May 7, 1908.

Be it resolved by the Ministers' Alliance of Mexico, Mo., that we hereby express our regrets at the departure of Rev. A. W. Kokendoffer from among us. In him we lose a faithful fellow pastor, a thorough Christian gentleman, and a conscientious citizen. While we sympathize with the Mexico congregation in their loss, we rejoice in the possibly larger opportunities of his new field and congratulate the Sedalia church on securing his services. We commend our brother to the ministers of Sedalia and Christian people of the community in general.—H. E. Truex, A. A. Wallace, C. M. Aker.

DEATH CAME SUDDENLY

To F. B. Hatton, Who Recently Bought the Dugan Property.

Mr. F. B. Hatton, who came here from Columbia some three months ago and purchased the Dugan property south of the city, died quite suddenly on his farm, five miles south of Columbia, yesterday forenoon, following a paralytic stroke.

Mr. Hatton had gone to Boone county on a business visit, and the news of his death came as a great surprise to friends of the family here.

The deceased leaves his wife and three children, viz: Dr. O. F. and Miss Claudia Hatton, of Sedalia, and Mrs. J. W. Schwabe, of Columbia, J. C. Hatton, of this city, was a cousin.

The funeral services were held in Boone county this morning, the interment taking place there.
